Company Profile

Compass Contracting & Employment helps its clients to succeed by removing the risk, cost and admin associated with contingent workforce engagement. They offer a range of services to cater for all work scenarios and pay levels. All of which come with the guarantee that the contractors are paid accurately, on time and in compliance with legislation and HMRC rules. Compass are also Professional Passport and SafeRec certified assuring full compliance with the latest legislation.

We wanted to grow with technology rather than people and not become one of the dinosaurs of the industry with more staff and manual processing. My Digital's technology has helped us scale the business and rise up through the marketplace. You can have the best software in the world, but it doesn't matter if you don't have a really good customer support process just in case something breaks. The thing we value the most is reliability; as much as software plays a star role in any business, it has to be something in the background, but pivotal. My Digital fulfils this function as a quiet system partner which is exactly what we need.
